

Multi-Actor Dialogue on Agriculture, Agro-Biodiversity and reaching Agenda 2030 within the Planetary Boundaries - SDGC/A Partnership

Purpose

The purpose of the Dialogue is to explore pathways for how agriculture can contribute to meeting the SDGs in the context of social-ecological resilience and the conservation, and sustainable use, of agro-biodiversity in Africa.

Expected Outcome

The Dialogue is expected to contribute to The World In 2050 by:

- (i) Acquiring African perspectives and getting sufficient information to develop one, or a diversity of, sustainable development pathways within the TWI050 framework
- (ii) Giving input on/suggest research agendas for TWI2050

The Dialogue is also expected to provide the participants with:

- (iii) Improved understanding of the Planetary Boundaries, as well as the role of biodiversity in reaching sustainable food systems in Africa,
- (iv) Enhanced information sharing and networking amongst the stakeholders.

House rules for the seminar

Rules for the seminar/s includes the following principles, based on respect:

- to listen actively, e.g. 'follow flow and focus' not to use telephone, sms or email in the meeting room
- to contribute to trust
- to show respect for others, e.g. to attack issues, not persons
- to ask for the turn to speak
- to respect time, both as panellist and as participant
- and to give the facilitator permission to run the seminar according to a plan throughout each session

Not this time:

- **Chatham House rule** - participants are free to use the information received, but neither the identity nor the affiliation of participantsexpressing a view may be revealed.
